NECSsolutions.com

Are you compliant? Confident and ready for the audit?

If you're uncertain about how your company handles regulatory compliance...
talk to NECS®.

Keeping your fleet of vehicles compliant, *legal* and on the road is what **NECS®** does best. Our goal is to provide the best service possible while minimizing expense. Understanding no two operations are alike, our menu of services is customizable and designed to meet your company's specific needs.

Fuel and Mileage Tax Reporting

Being in compliance with state regulations is critical to the successful and profitable operation of your company. **NECS®** can assist with the following tax returns and their corresponding permits:

- IFTA (International Fuel Tax Agreement)
- Kentucky Highway Use Tax (KYU)
- New Mexico Weight Distance Tax
- New York Highway Use Tax
- Oregon Mileage Tax

Rely on **NECS®** to know the rules and regulations while you concentrate on your core business. We'll compile your tax return data, file your returns, order and distribute the required credentials, provide monthly customized reports and free audit support on any work we've prepared. **NECS®** has the technology to import mileage data from GPS devices and compile and prepare your tax returns. This eliminates the need for your drivers to complete trip reports and allows for seamless collection of data and a more efficient process.

Permitting and Operating Authorities

No matter your need, **NECS®** stands ready to obtain operating credentials.

- Temporary Permits
- Trip
- Fuel
- Over-dimensional
- Over size/over weight
- Intra-State Operating Authorities
- Other Operating Permits

A simple call to our toll free number and your drivers are on their way, no matter where they are in the country. With advanced notification, **NECS®** can handle your permitting needs seven days a week.

Consulting and Training

NECS® can provide training materials to your drivers on matters of IFTA/IRP compliance. These materials can be customized to meet your company's specific needs. **NECS®** can also provide on-site training to ensure your vehicles stay on the road, legal, and in compliance.

Save TIME and MONEY!

FREE up your staff! **NECS®** cost effective solutions will reduce internal overhead and administrative costs. **NECS®** utilizes technology to reduce the cost involved in tax reporting, obtaining, and distributing decals, registrations, plates, and titles, etc.

Depend on the **NECS®** team of experts for **fast, efficient and hassle-free service** on any size fleet in any location!

DOT Services

NECS® offers a wide variety of DOT services that help you to keep your drivers in compliance with federal and state DOT requirements. Let **NECS®** assist you with:

• Driver Qualification File Management

NECS® can manage your driver qualification files through our proprietary web based system known as the *Driver Profile Management System™* (DPMS™). DPMS™ allows **NECS®** to fully digitize your DQ files eliminating the need for paper files while providing access to your records 24/7 from any computer with an internet connection. DPMS™ assists with accident/incident management, random drug pool selection, safety awards management, driver turn over data, all in one secure web-based environment. Our digital dashboard will give you an immediate picture of your DOT compliance at the click of a button.

• Driver Log Auditing

DOT rules and regulations regarding hours of service often pose the greatest challenge for carriers. **NECS®** will manage your driver log auditing process via our log scanning and auditing solution. That solution allows us to receive logs via e-mail, fax, or US Mail. **NECS®** will scan and audit the logs for form and manner, and will notify you of any potential issues that require further action or driver training. We'll also prepare notifications of violations and forward them to you and your drivers. **NECS®** will retain your driver logs in accordance with DOT policies and procedures.

• DOT Review and Assessment

NECS® provides a comprehensive evaluation of your operations to assess areas of risk with regard to DOT compliance. Our team of experts will perform an extensive on-site assessment of DOT related items, recommend best practices and provide training to ensure your DOT compliance and minimize your risk.

• Professional Driver Assessment Testing

If you're having trouble hiring and retaining drivers, talk to **NECS®** about our *Professional Driver Assessment™* testing program. This web based pre-hire test will assist you in your hiring process. The PDA™ is a tool that can help you lower driver turn over and reduce risk. Call **NECS®** for a free demo!

Title and Registration Services

The **NECS®** team of experts has a national network capable of handling any type of request for titles and registrations in the most cost effective, time efficient manner. Rely on **NECS®** to handle any of the following transactions:

- IRP Registration - New and Renewal
- Base Plate Registration - New and Renewal
- Replacement Plates and Registrations
- Duplicate Titles
- Title Searches
- Acquisition Management
- Audit Representation and Consulting

Allow **NECS®** to help manage your fleet of vehicles and keep them legal and on the road. We track expiration dates of credentials and ensure that your new credentials are received well in advance of expiration. **NECS®** will research lost titles and order replacements in a timely manner.

Keep your fleet legal, on the road and in compliance!

Let **NECS®** drive you in the direction of higher PROFITS!
